

# Nature-making

Designing landscapes to produce ecosystem services in neighborhoods and cities.

	Case	Pathway
<b>Services</b>	Air quality improvement	Institutional
		Tree planting for air quality (" <a href="#">Greening Morrisania</a> ") (NYC)
		<a href="#">"Sacramento Urban Forest for Clean Air Project"</a> (Sacramento)
	Carbon sequestration and storage	
	Energy efficiency	
	Phytoremediation*	
Stormwater management	<a href="#">Pearl District "water parks"</a> (Portland, OR)	Institutional
Wildlife habitat and forage	<a href="#">Garden for Birds</a> (San Francisco)	Citizen
	<a href="#">Ivy Narrow Bird Preserve</a> (New Haven)	Citizen

\*Phytoremediation is rarely classified as an ecosystem service of urban trees and other vegetation. Its inclusion here was inspired by Kaja Kühl's *A Field Guide to Phytoremediation*.
